

# Buddhahfield

*In the perfect secluded place, under a vast sky, everything one does is good*

# Inspiring

**BUDDHAFIELD** is a pristine 40-acre sanctuary with breathtaking eastern views in the foothills of the Berkshires, two hours north of New York City.

A serene scene of a pond with a blue fish and green foliage. The water is clear and blue, reflecting the sky and the surrounding greenery. A single blue fish is visible in the middle ground, swimming towards the right. The foreground is dominated by the dark green, out-of-focus leaves of a tree or bush, which frame the scene. The overall atmosphere is peaceful and natural.

# Peaceful

*A sanctuary for all  
to simply be alive  
naturally at ease*

# Expansive

*An infinite view  
clarity of mind  
boundless love*

# Compassionate

*Unconditional acceptance  
for self and others  
beyond ordinary thinking and feeling*

# *Buddhafield invites all to share in the creation of this unique vision*

---

BUDDHAFIELD will include the construction of a retreat center designed with balance and equanimity and constructed with minimal ecological impact.

*“We’re building more than a retreat center, we’re building a sanctuary of complete awareness within ourselves, in the center of our hearts.”*

—Shyalpa Rinpoche

HIS EMINENCE SHYALPA RINPOCHE is a Tibetan lama who is the founder and spiritual director of BUDDHAFIELD. With his exceptional kindness and humor, he can relate to all according to their individual needs.
